Plasma Cutting Systems
 Expand Student Metalworking Skills

REALWELD® Welding Training System
 Guided Real Welding Practice

Give students more flexibility to practice, troubleshoot and master welding techniques with an advanced welding training system designed to advance skills while reducing material costs.

Immediate Analysis

Real-Time Guidance

Enhance the Learning Experience
 Make your shop a complete metalworking operation - cutting, welding, finishing.

Proper PPE
 Proper PPE is essential for safety in the shop.

Classroom Teaching Aid
 Bring your classroom to life with interactive content.
