

NEBOSH Award in International Health and Safety at Work (NEBOSH HSW)

Who can take NEBOSH HSW?

The NEBOSH Health and Safety at Work qualification is **3 day** course which covers basic health and safety principles appropriate for any workforce to practice vigorous safety culture in the organisation. NEBOSH HSW courses are helpful to learn, understand and apply risk assessment and control strategies for the working environment. NEBOSH HSW courses are well recognized in Jubail as many residents work in Saudi in various hazardous industries with the responsibility of safeguarding themselves and other people working with them.

NEBOSH Award in Health and Safety at Work helps to identify common hazards in work place like fire, electricity, transport, manual handling, hazardous substances and the work environment. Delegates are suggested to follow the recommended tuition of 18 hours and minimum 6 hours of private study.

The NEBOSH HSW in Saudi initially attracts the corporate to identify the high level operators or skilled workers. Facilities manager and a company involved in infrastructure development prefer such qualification to reduce the level of accidents and increase the safety awareness. ANMAR is the most preferred safety training institute to offer NEBOSH qualifications especially HSW courses in Jubail which will be useful for this developing city. Team leaders and supervisors involved in the project development with this qualification are mostly hired by corporates.

NEBOSH HSW in Saudi fulfil the great demand on international workplace standards and effective health and safety management system for workers and supervisors to understand the know-how of safety in their day to day tasks. NEBOSH HSW training in Jubail provide a gateway for fresher with technical educational background like mechanical, civil,
